

## Pradhan Mantri Kaushal Kendra

### Project Brief:

Excelus Learning Solutions in association with National Skill Development Corporation (NSDC) implements placement linked skill development program in Pradhan Mantri Kaushal Kendra under the initiative of Ministry of Skill Development & Entrepreneurship. The candidates are trained in short term vocational courses spanning over 1 to 3 months and are provided employment opportunities upon successful completion of the respective domain specific assessment.

### The Challenge:

Post the completion of studies till 12th standard, often the youth in rural and urban locations in India needs training in job-oriented skills that would further facilitate their prospect of sustainable livelihood opportunities. The industries face a scarcity of skilled candidates in the entry and mid level management of the organization with the desired level of expertise.

### Skilling Intervention

The youth in need of skill development courses in vocational job roles are mobilized through various community outreach programs. The team of expert trainers of Excelus Learning then train the candidates in PMKK centers equipped with quality infrastructure support and multi-media enabled classroom to give the candidates the right exposure. The candidates are provided with industry exposures through industry visits and guest lectures to further familiarize them with the organized sector. Post the completion of the training and the subsequent sector specific assessment, the candidates are provided with employment opportunity

### The Impact\*

States Covered	Operational Centers	Candidates Trained	Minorities Trained	Women Trained
7	43	5,014	351	1,641
